LITHIUM OFF-GRID SOLAR BATTERY SYSTEM

Ausuntech Energy Off-grid Package aimed at offsetting heavy use from items such as air conditioners, electric hot water and other modern appliances. With reliable German technology SMA inverter & safest Lithium BYD Battery, the system is impervious to fine desert sand, high humidity in rainforests, significant temperature fluctuations, and salty mist in coastal regions, even in critical situations, the off-grid system will keep running safely.

The 10kw BYD lithium Battery is a sleek and stylish solution that is perfect for the average sized Australian off-grid household. BYD's modular architecture means households get a storage solution that's exactly what they need. The modularity of the BYD Battery also provides flexibility and the capability for the homeowner to add additional storage at a later date.

Ausuntech Energy provides Tier 1 branded panels and quality inverters with competitive prices while delivering performances

PARTS ONLY PRICE
\$18,900⁺ GST

* Single Phase Only
* Terms & Conditions apply
